

# GeoTrust® True BusinessID Multi-Domain

## Protect multiple domains.

A lot of SSL providers let you secure multiple domains, but only GeoTrust True BusinessID Multi-Domain certificates give you the flexibility and expert support you need to make managing your multi-domain certificates easy. A highly versatile, affordable solution, True BusinessID Multi-Domain certificates are ideal for a wide range of environments, including enterprises that need to protect several domains, businesses that need to secure Microsoft Exchange Servers and other unified communications (UC), Office Communications (OC) servers, and more.

## Manage your certificates how you want, when you want.

With GeoTrust multi-domain certificates, you can add up to 24 values to the subject alternative name (SAN) field. Not only that, but you get a variety of options to manage your certificates quickly and easily. Unlike other companies that require you to contact customer support to make changes, GeoTrust offers a convenient self-service portal to add, edit or delete SAN names at any time during the certificate lifecycle. You also receive unlimited server licenses so you can use your True BusinessID® Multi-Domain certificate on servers across your organization.

With GeoTrust, you get the features and flexibility you need to manage all of your domain names at an affordable cost.

**Need help? Don't hesitate to ask.** We pride ourselves on our easy-to-use management tools, but we're still here to answer your questions when you need us. We're security specialists, so if you need help, you'll get the support of trained experts, not just internet generalists.

## Is True BusinessID Multi-Domain right for you? If

you can answer yes to any of these questions, then it's time to get True BusinessID Multi-Domain for your business:

- Do you need to secure multiple domains across your organization?
- Are you looking for a UCC (Unified Communications Certificate) to protect your Microsoft Exchange or Office Communications Servers?
- Are you looking to simplify certificate and domain management across your organization?

## Features of GeoTrust True BusinessID Multi-Domain

- Secure up to 25 different domains on a single server
- Fully compatible with Microsoft® Exchange Server 2007, 2010, and other UC servers
- Security: Strong 256-bit encryption; 2048-bit root
